

*After WOW Zone Bible Time and Midway Games head to the Concession Stand for a snack. This is a great time to discuss and review the day's lesson and memory verse. You can prepare and serve one of the suggested snacks or substitute whatever you have on-hand.*

### **DAY ONE: INCREDIPOP POPCORN**

Any popped popcorn seasoned to your taste

**Discussion starter:** Who knows on what day God created plants? (Day 3). God designed plants in amazing ways. Talk about how a popcorn kernel completely changes when it's heated.

### **DAY TWO: INCREDIBLE ANIMAL KINGDOM TREAT**

Any animal or dinosaur-shaped cookies, crackers or fruit snacks

**Discussion starter:** Who knows on what day God created animals? (Birds and fish/sea creatures on Day 5, land animals on Day 6). Did God create all the animals on the same day? YES! Discuss some of the amazing animal facts you learned at Bible Time.

### **DAY THREE: FRUIT ON A STICK**

Fresh fruit arranged on a bamboo skewer or coffee stirrer or fruit-shaped chewy snacks

**Discussion starter:** Imagine all the fruit that God gave Adam and Eve to eat in the garden. They were given so many wonderful foods, but what did they want? The one thing they couldn't have. Discuss how Satan does this to everyone—he tries to get us to focus on what we don't have instead of being thankful for what we do have.

### **DAY FOUR: EAT LIKE A BIRD**

Trail mix, nuts, sunflower seeds or berries, fish-shaped crackers, or gummy worms; juice box or pouch with a straw

**Discussion starter:** God created birds with unique beaks to enjoy a variety of foods. What kind of bird eats (whatever your snack is)? What kind of bird uses its beak like a straw? Practice today's echo phrase: "It couldn't just happen, God made them that way!"

### **DAY FIVE: CHIP-O-SAURUS**

Triangle-shaped tortilla chips with salsa or cheese dip

**Discussion starter:** Do you know the name of the dinosaur that has spikey plates on its back, sort of like the shape of these chips? Stegosaurus. Do you know the names of other dinosaurs? Put your Bible glasses on and review what we know about dinosaurs from the Bible and from today's Bible Time.
